

Los Angeles Regional Water Quality Control Board

July 25, 2014

Mr. Manuel Del Real
Assistant Deputy Director
Los Angeles County Department of Public Works
900 South Fremont Avenue, 9th Floor
Alhambra, California 91803

TENTATIVE WASTE DISCHARGE REQUIREMENTS (WDRs) AND REVISED MONITORING AND REPORTING PROGRAM FOR LOS ANGELES COUNTY, DEPARTMENT OF PUBLIC WORKS, TRANCAS WATER POLLUTION CONTROL PLANT – 6338 PASEO CANYON DR., MALIBU, CA (ORDER NO. 00-030, FILE NO. 61-061, CI NO. 3017, GEOTRACKER GLOBAL ID WDR1000001760)

Dear Mr. Del Real:

The California Regional Water Quality Control Board, Los Angeles Region (Regional Board), is the public agency with primary responsibility for the protection of ground and surface water quality for all beneficial uses within major portions of Los Angeles and Ventura Counties, including the referenced property above.

On March 2, 2000, the Regional Board adopted Waste Discharge Requirements (WDRs) Order No. 00-030 for the Trancas Water Pollution Control Plant (Trancas WPCP) owned and operated by the Los Angeles County, Department of Public Works. Pursuant to the California Water Code, all waste discharge requirements are reviewed periodically, and, upon such review, may be revised by the Regional Board. Following a review of the existing requirements contained in WDR Order No. 00-030, a tentative Order for WDRs and tentative revised monitoring and reporting program (MRP) have been prepared.

Enclosed are copies of the Tentative WDRs consisting of:

- a. Tentative Regional Board Order No. R4-2014-XXXX specifying WDRs,
- b. Tentative Revised Monitoring and Reporting Program No. 3017, and
- c. Tentative Standard Provisions Applicable to WDRs.

The documents are also available at the Regional Water Board's website:

http://www.waterboards.ca.gov/losangeles/board_decisions/tentative_orders/

In accordance with administrative procedures, the Regional Board will consider the enclosed tentative WDRs and comments at a public hearing to be held at 9:00 AM on September 11, 2014 at the Metropolitan Water District of Southern California, 700 North Alameda Street, Los Angeles, California. The Regional Board will hear any testimony pertinent to this discharge and the tentative requirements. It is expected that the Regional Board will take action at the hearing; however, as testimony indicates, the Regional Board at its discretion may order further investigation.

July 25, 2014

In order to be evaluated by the Regional Board staff and included in the Regional Board's agenda packet, written comments or evidence regarding these tentative WDRs/WRRs must be received at the Regional Board's office by 5:00 p.m. on August 25, 2014. Failure to comply with these requirements is grounds for the Regional Board to refuse to admit the proposed written comment or evidence into the record. Timely submittal of written comments is encouraged to ensure that all comments are accurately and fully included in the administrative record, that Regional Board staff is able to provide timely review, and that Regional Board members have sufficient time to give full consideration to the comments and issues raised.

Standard Provisions, which are part of these tentative requirements, are enclosed for the addressee only. However, these are on file in our office, and a copy will be sent to interested persons upon request.

The agenda for the meeting will be posted on the Regional Water Board's website (http://www.waterboards.ca.gov/losangeles/board_info/agenda/index.shtml) approximately one week prior to the meeting.

If you have any additional questions, please contact the Project Manager, Ms. Mercedes Merino at (213) 620-6156 or via email at Mercedes.Merino@waterboards.ca.gov, or me at (213) 576-6683 or via email at Eric.Wu@waterboards.ca.gov.

Sincerely,

Eric Wu, Ph.D., P.E.
Chief of Groundwater Permitting Unit

Enclosures: Tentative WDRs Order No. R4-2014-XXXX
Tentative Revised Monitoring and Reporting Program No. 3017
Tentative Standard Provisions Applicable to WDRs.
